Other packages are available on request. Please contact us for more details.

Candidates who do not achieve the required standard in either the practical or the theory assessment, may be required to demonstrate competency by re-sitting the sections not achieved, in which case an additional cost may be incurred.

For Category One Applicants (Gas), there is no requirement under the Accredited Certification Scheme to undertake any revision or training prior to assessment, nor does completion of any such training guarantee achievement in an ACS assessment.

All fees are subject to VAT at the prevailing rate and subject to change without prior notice.
